THE QUEEN'S BIRTHDAY

So dear to all Englishmen, is with us once more. To day is the sixty-fourth anniversary of the birth of Victoria, Queen of Great Britain and Ireland, Empress of India, &c. What a wonderful series of events a retrospect over that time calls to mind. How the world has changed. What divisions have been obliterated and new ones erected. Civilization has spread and with it the Englishman ever in the forefront. Few can expect to see many more of these anniversaries, but all will admit that each one has left the greatest empire of the world better than at the preceding one. To-night to celebrate the memory and love of that Queen, so dear to all true British hearts, the British Benevolent Society give a ball where numerous couples will

"Chase the glowing hours with flying feet."

We wish them a merry time and a substantial result for the charitable aid intended.

NEWSPAPER Supplements in this city, are not read so carefully as they deserve, to be. In view of this it seems a pity that owing to the very great quantity of matter, given in each issue, so much interesting local news should be forced into the supplement by the Gazette.

FOR the past two or three days numerous reports have been heard as of the firing of guns. It turns out that these are from the blasting operations necessary to excavate a cellar for that new building which is being erected on Nuuanu street makai of the Wing Wo Chan Company's store.

THE survey of the Moravian disclosed the fact that little damage had been done. The fire was entirely confined to the fore peak of the vessel injuring 5 stanchions, which will have to be replaced, and the windlass, which will have to be strengthened. The vessel, with these changes, will be in a thoroughly seaworthy condition.

AGAIN the public are annoyed by the dumping of old lumber on King street near the Chinese wash-houses, and leaving it so as to obstruct the roadway. We have before pointed out that the Government are making an immense profit out of the wash-house rents and that they ought to build a road from King street along the back of them. Why isn't it done?

THE Gazette some time ago took up the Premier and held him up to execration as having (so it said) some year's before hinted at Charles I's case being repeated in these islands. What change of front caused them to publish that editorial on Liberty yesterday with precisely the same suggestion which they said was so fearful for Mr. Gibson to have made.

Lost.

G. W. MACFARLANE & CO.

WE DESIRE TO CALL THE ATTENTION OF THE PUBLIC to the arrival of our new Invoices Just received per Steamer Abergeldie from London, comprising the largest and most varied assortment of Goods and Merchandise ever imported to this Kingdom and which will be ready for Exhibition at our Sales Rooms on Thursday next, May 17th.

In offering these goods for sale we take great pleasure in informing the Ladies of Honolulu and of the other Islands that we have anticipated every want in their line, and are now prepared to show them the choicest line of Goods ever offered for sale here, having been carefully selected by a member of our Firm from the very latest stocks of the leading House of London and Paris, with reference to the particular necessities and requirements of this community.

Many of the articles referred to are of the very latest and most unique designs, and as the venture is mainly experimental to test the wants of our ladies, they may be regarded as merely sample lots. Ladies will do well therefore to call early, as the goods will be disposed of as soon as possible, to make room for our extensive stock of goods for the city and country trade.

We wish to call particular attention to the following Grand Exhibition pieces from the world-famed Manufactory of MESSRS. R. P. DANIELL & CO., OF LONDON, the surpassing beautiful examples of their workmanship, having attracted the notice and admiration of Napoleon III., who granted the Senior Daniell free and exclusive permission to reproduce from the old models at the Government works at Sevres. It is not surprising therefore to note that this now world-renowned house have taken every first prize medal at all of the great International Exhibitions on the Continent for the past twenty years.

The piece de resistance of this art collection is a SUPERB PROMETHEUS VASE and cover of turquoise blue ground, and colored majolica, with emblematic figures at sides, and the chained Prometheus and vulture, most elaborately and beautifully wrought on the cover. The above is the identical piece that secured the first prize at the great PARIS INTERNATIONAL EXHIBITION of 1868. Some idea of the value of this work of art can be formed from the fact that it underwent fifteen separate trials before arriving at its present perfected state of form and color. The unusually large size of the piece rendering it apt to split in two, on account of the severity of the heat to which it is exposed in the firing. The color combinations are strikingly effective, and the delicate handling of tints is a marvel of artistic skill.

There will also be on exhibition a PAIR OF MAGNIFICENT VASES reproduced from old Sevres models, granted to Mr. Daniell by His Imperial Majesty Napoleon III. They are of rose aventurine tint, surmounted with exotic birds of most brilliant and beautiful plumage, and elaborately and richly finished in gold ornamentation, with elegantly carved ebony pedestals with marble tops and crimson plinths. Also a most exquisite TABLE CENTER PIECE in turquoise and gold, with parian supporters and shell plateaux for flowers and fruits, very richly ornamented in gold. This piece is from old Sevres' examples for great exposition specimens, and has taken the first prizes at all competitive European Exhibitions since 1872.

The above mentioned pieces will remain on exhibition at our Show Rooms for two or three weeks, after which they will be sent to San Francisco and New York for exhibition and sale.

In addition to the foregoing there are some smaller pieces in the same line which are deserving of especial mention, notably a LIFE SIZE COCKATOO with wings spread, flower holders at sides and chastely finished in ornamentation. This is a most surprisingly effective piece, and the coloring is so faithful to Nature as to be realistic in the extreme. Also

ONE JARDINIERE with satyr handles most exquisitely decorated in mottled colors and gold aventurine with two ebony tripods, with pedestals and crimson Utrecht velvet stands for same. Also

ONE ROUND JARDINIERE on four feet blue ground and silver embossments after Egyptian patterns

ONE LARGE JARDINIERE in Persian turquoise blue, with elephant handles and square pedestal for same with dark green ground

ONE ESQUIMAUX UMBRELLA STAND in majolica with life-like representation of a seal in perfectly natural colors. This is a most artistic piece of workmanship.

ONE TALL PEDESTAL of mazarine ground with most graceful and naturally colored leafage. A very handsome parlor ornament. Also

ONE TALL PEDESTAL in turquoise, with graceful and nicely colored festoons of fruits and flowers intertwined

TWO RIBBON FLOWER VASES of most unique design with mazarine ground and gold Japanese sprays

GARDEN SEATS Beautifully decorated with naturally colored chrysanthemums and pink tied ribbons. Also ditto on celadon ground. Are very handsome garden ornaments

FLOWER POTS AND STANDS Of rare and beautiful design, with mazarine ground and colored clematis with birds beautifully embossed. All of the above mentioned are very different pieces to produce on account of the various combinations of color required, necessitating separate firings for each color produced. Some of the pieces have split in the kiln as many as eight times, so that when a piece is brought safely through the firing process, the value is quite apparent. We wish again to call especial attention to

TWO SUPERB ETCHINGS On porcelain plaques, by well-known European Artists. The one is a Marine 1890 by Ballu, in Sepia, and one of the best examples of this most delicate and wonderful art, which is now undergoing such a spirited revival in the United States and Europe. The drawing in this picture is exceptionally good, and the Chiar-oscuro effect very cleverly handled.

The other represents a Coast Scene by Mortino, which is particularly noticeable for its free and unconventional treatment, and the delicate distribution of tints. These are the first Etchings on porcelain ever exhibited in Honolulu, and are well worthy of a visit. The following choice articles of
